

## **BAB 5**

### **KESIMPULAN DAN SARAN**

#### **5.1 Kesimpulan**

1. Persen aktivitas penghambatan antibiofilm pada madu kaliandra terhadap bakteri *Streptococcus mutans* adalah 60% sebesar  $88,775\% \pm 0,0072$ .
2. Persen aktivitas penghambatan antibiofilm pada madu randu terhadap bakteri *Streptococcus mutans* adalah 60% sebesar  $102,1972\% \pm 0,0008$ .

#### **5.2 Saran**

1. Perlu dilakukan penelitian lebih lanjut mengenai uji antibiofilm madu kaliandra dan madu randu dengan konsentrasi yang sama untuk mengetahui struktur senyawa yang dimiliki aktivitas antibiofilm.
2. Perlu dilakukan penelitian antibiofilm pada madu kaliandra dan madu randu yang diperoleh langsung dari sarangnya.
