Dear Professor TAMBUNAN

Many Thanks

We have an important remark

**It is not good to send emails directly to the Editor-in-Chief
for finances. The Editor-in-Chief is only for the Scientific Part.
He is not involved in the registration fees**

Best Regards

Elena Triantafyllou

Dear Dist. Prof. Michael N. Katehakis
Editor in Chief-WSEAS Transactions on Business and Economics,

Warm greetings from Indonesia. I am Tigor Tambunan, a researcher at Universitas Katolik Widya Mandala Surabaya. On November 8, 2024, I uploaded an article entitled "Social Media Marketing Mix for SMEs in Indonesia: A Decision Tree Modelling" (id: 5107-3170 (32801))." On this occasion I ask for exemption regarding the commitment fee which is separate from APC payment . If permitted, I hope to be able to make the payment of the commitment fee and APC at once via bank transfer when the article is accepted. FYI, this article is funded by the Ministry of Education and Culture, Research and Technology of Indonesia. Please, inform me about the Bank account for the transfer process. I really hope that the Editor in Chief will approve our request and be willing to continue the review process for our article

Yours Sincerely,

Tigor Tambunan

Dear Dr. Elena Triantafyllou,

I am very sorry for the inconvenience. I have searched for a specific email regarding this matter on the WSEAS Transactions on Business and Economics page (<https://wseas.com/journals/bae/>), but could not find it. Please provide me with the contact person/email regarding the APC and submission fee.

Yours sincerely,

Tigor Tambunan

Dear Author

The paper you submitted to WSEAS Journals is still pending, because the reviewers did not reply to our emails. We have to find new reviewers again for your paper.

We have noticed that several authors do not pay the publication fees, while, the Editor-in-Chief, the Associate Editors and the Reviewers have spent several months working on their papers.

So, the WSEAS Administration has decided, to block as guarantee a very small amount of 10 EUR from the Authors' Credit/Debit Card

(See our policy here <https://wseas.com/fees.php>)

So, if you agree to try to find new reviewers for your paper, please, fill in this form <https://wseas.com/block10.php> until November 30, 2024

We will never charge any card without the written authorization of the owner

This is only an indication that you agree to pay the fees in case of the acceptance of your paper

Also, even in the case of acceptance, we will NOT charge any card without your NEW authorization

Alternatively: If you do not have a Debit / Credit Card contact us by email

support@wseas.org, wseas-team@wseas.org

and we will give you a Bank Account where you will make a small Bank Deposit of

5 EUR (only 5 EUR)

This amount will be also returned to you after the end of the review process either in case of acceptance or in case of rejection.

It is the policy that will allow us to minimize the cases of authors who refuse to pay the fees after the tedious, long and difficult task of peer review or even authors who receive comments from our reviewers only because they intend to improve their work and submit it to another Publisher later elsewhere or even authors who send articles written by AI (Artificial Intelligence) tools or plagiarized or self-plagiarized work.

Thank you

Dear Dr. Tigor Tambunan,

Thank you for your registration.

The reviewers' comments are attached, as well as the Turnitin Reports, which are related to the similarity index report and the report with texts that have been generated by AI.

The following Certification - Evaluation for the Review Process must be filled in and signed (by one author):

<https://wseas.org/multimedia/authortestimonials/CERTIFICATION.docx>

Please, upload the Revised Version (in .doc/.docx format or the LaTeX files in a zip folder) and the Certification together using this form;

<https://wseas.com/form/wseas-revised-form/upload-form/index.php>

until **December 20, 2024**.

Please note that it is mandatory to adjust your manuscript in the correct format for publication; <https://www.wseas.com/format.php>

The present work passed on the machine language "Grammarly" (<https://www.grammarly.com/>) that detects language or typing errors. Concerning the formal English language style and grammar, please make a spelling check of the text on your manuscript to avoid mistyping errors. The authors shall check punctuation and misprints in their manuscript and make appropriate corrections where necessary.

Best Regards

Maria Georgieva

Dear Prof. Tigor Tambunan,

We have completed the proofreading of your document by checking and changing flaws in grammar, spelling, punctuation, incorrect tenses and commas. Moreover, we have checked that all the figures, tables and references of the article are cited inside the text (see 5107-3170-with track changes.pdf).

However, a few corrections are required, such as;

1/. You need to remove all texts with "author name-surnames" such as "Liu & Yang, 2022" etc., and replace them with the corresponding reference numbers in brackets. Also, please make sure that all citations appear in a sequel numerical order. This means that by starting from page 1, each citation should follow an ascending numerical order throughout the paper [1], [2], [3]...[40].

2/. All reference citations (e.g. "[2-4]") should be uniquely cited in your paper. For example; "[2-4]" should become "[2], [3], [4]".

3/. Table 1 is not cited in the text; therefore, please add the in-text citation.

4/. Please note that we accept up to two (2) references in languages other than English. Consequently, it is mandatory to revise your references accordingly.

5/. You need to update the references by adding the following details where are not mentioned;

*in case of a Journal, the Volume, Issue, and Pages are required.

*in case of Conference Proceedings, the Location is required.

6/. You need to correct the format of the reference that instead of the author's names appears "et al" text which is not the appropriate format. Instead of "et al", you need to mention each author's name.

Lastly, please read carefully the new version (see 5107-3170.docx) of your manuscript which is attached to this email and confirm that you agree with our changes.

All the above corrections should be made **only** to the enclosed version.

You need to send me your final version **until January 16, 2024**.

We remain at your disposal for any further assistance,

Many Thanks

Dear Dr. Rena Karageorgi,

I have revised our article with the following explanations:

1. Liu & Yang, 2022 -> [28]

2. All references have been cited uniquely.
3. Table 1 has been cited
4. Only 1 non-English article has been cited [5]
5. Completed the conference location, volume, issue, and page number of the article in the journal.
6. Completed the author's name (replaced "et al") [32]

Please inform me if there is anything that needs to be revised.
Thank you.

Yours sincerely,

Dear Dr. Tigor Tambunan,

I would like to inform you that the Final Version contains a percentage of AI text below 20% and therefore it is mandatory to declare it on your manuscript as per our Publication Ethics and Malpractice Statement (<https://www.wseas.com/pemas.php#18>).

Authors who use AI tools in the writing of a manuscript, production of images or graphical elements of the paper, or in the collection and analysis of data, must be transparent in disclosing by adding a section in the paper on how the AI tool was used and which tool was used. Authors are fully responsible for the content of their manuscript, even those parts produced by an AI tool, and are thus liable for any breach of publication ethics. Authors should disclose in their manuscript the use of AI and AI-assisted technologies in the writing process by following the instructions below. A statement will appear in the published work. Please note that authors are ultimately responsible and accountable for the contents of the work.

Disclosure instructions

Authors must disclose the use of generative AI and AI-assisted technologies in the writing process by adding a statement prior to the References list. The statement should be placed in a new section entitled 'Declaration of Generative AI and AI-assisted technologies in the writing process'.

Statement: During the preparation of this work the author(s) used [NAME TOOL / SERVICE] in order to [REASON]. After using this tool/service, the author(s) reviewed and edited the content as needed and take(s) full responsibility for the content of the publication. (You need to fill in the statement above the Reference list).

Concluding that in case where the AI technologies were used in order to improve the readability and language of your manuscript, only in such a case, you need to add the 'Declaration of Generative AI and AI-assisted technologies in the writing process' section in your manuscript (as per guidelines above). In any other case, you need to please eliminate this percentage.

Please fill in the statement which you will find before the References list and send me your final version for publication.

We remain at your disposal for any further assistance,

Best Regards,
