Department

ACKNOWLEDGEMENTS

Above all, I would like to thank God for His guidance during the process of writing this thesis. Without Him, I could not have finished it in due time.

I also acknowledge my deepest gratitude to the followings:

1. My advisor, DR. Wagiman, who has spent his time and attention in directing, correcting, and improving my thesis.
2. ILS director Dra. F.O. Dien Koeswanto and Junior class' teacher Joe, who allow me to take the data from their students.
3. The Junior students, who have given a great assistance in taking the data.
4. Erwin Krisnanda, S.Pd., who has spent his time and been very patient in guiding me writing this thesis. You help me very much.
5. My beloved parents, who always support me by their prayers.
6. My dear sister and her husband, Inne and Adi, my little sister Ivana, and also my brother Sandy, who always encourage me to do this thesis.
7. My dearest friend, Budi Santos, who always supports and helps me, and also for his prayers.
8. My best friend, Megawati, who encourages and supports me

to finish this thesis.

9. My supporting friends, Purwani, Fenny and Aguslina.

10. My friends in Mawar Sharon Church, Yanto and Daniel.

"May God Bless all of you".

Jurusan : Pendidikan Bahasa dan Seni
Judul : A Study On The Language Used By 5 to 6 Year
Old Boys And Girls of International Lan-
guage Study Surabaya

Background of the study

We all know that language is a very important tool in our civilized life. It can not be separated from human life, because without language people can not communicate to each other smoothly.

We can be sure that no two speakers have the same language as no two speakers have the same experience of language. Boys and girls will speak differently when they talk to each other, aspecially if they talk to each other in the same sex that is boys to boys and girls to girls.

The statement of the problems

In line with the background of the study, this research intended to answer the following questions:

1. What language is used by 5 to 6 year boys and girls?
2. Who speaks more language, boys or girls? Why?

The objective of the study

This study is conducted to find out:

1. The 5 to 6 year old boys' and girls' language.
2. Boys or girls speak more language. The reasons why they speak different languages.

The research methodology

This study is a quantitative study. It describes the boys and girls language and who speak more language when they talk to each other in the same sex.

The conclusion

The writer finds out that 5 to 6 year old boys and girls use English, Inonesian, Javanese, and Betawi. The girls use Chinese and the boys do not. The girls speak more languages, they use five languages that are English, Indonesian, Betawi, Javanese and Chinese. And the boys use four languages that are English, Indonesian, Betawi and Javanese. Among the five languages it is found that Indonesian is

spoken more by they children. It is because they must speak Indonesian in their school and Indonesian is the first language in Indonesia.

They use different languages in order to maintain the smoothness of the conversation, they have different experience in acquiring the languages, the lack of vocabulary in one language, and sex differences.
