ACKNOWLEDGEMENT

Foremost, I would like to praise and give my gratitude to God for His blessing throughout my research from the beginning until the end. The writer would like to thank for all the guidance, blessing and strength given. Without Him, this research would never be finished.

I would like to express my gratitude to my family. My parents, my brother, and my sister, who always support me and pray for me from the first semester to the last semester. Without their prayers, I would not be here and not able to finish this thesis.

Then, I would like to give my gratitude to my advisor, Maria Josephine Kriesye S., M.Pd. for all the time, suggestions, revisions, advice, comments, and support throughout the research process.

I also would like to give my gratitude to the following people who have helped me finalize this research.

1. All of my friends from the 2016 batch.
2. Motivating and lovely friends, Jennifer Elim Santoso, Pricillia Christianti and Olivia Widyawati, who have gave me suggestions in this thesis and proofread it.
3. And, the school, the teacher, the staff and all the participants that participated in this thesis as the subjects of this research.

The researcher hopes that everyone contributing to this research will be blessed by God. May God be always with them and always guide them to the right path. The writer is always welcome constructive critics and comments as the researcher aware that this research is imperfect.

ABSTRACT

Sorensen, J, L. (1213016058). **The Effect of Charades and Pictionary on Nouns Attainment of 8th Grade Students**. Thesis, English Education Study Program, Faculty of Teaching Training and Education, Widya Mandala Catholic University, Surabaya, 2019.

Keywords: Charades, Pictionary, Nouns.

This research aims to discover the effect of Charades and Pictionary on nouns attainment of 8th-grade students. The method used was quantitative. The design of this research was quasi-experimental. The total sample of this study was 34 students. The experiment group consisted of 17 participants, the control group consisted of 12 participants, and the last 5 participants included were in the pilot group. The instrument was the vocabulary tests. The test consisted of pre-test and post-test. The data obtained were analyzed using T-test. Based on the criteria of hypothesis test that if sig. 2 tailed (p) was lower than alpha (α) 0.05, then H_0 (Null Hypothesis) was accepted and H_a (Alternative Hypothesis) was rejected. The result of this study was p was 0.02, so $p < \alpha$. Therefore, Charades and Pictionary improved 8th-grade students' nouns attainment. Moreover, the result of Cohen's d effect formulation was 2.773, based on the indicator the result meant that Charades and Pictionary have significant effect on the student.
