## **ABSTRACT**

Dorothy, S. (2022). My Experience in Developing Online Learning Materials in CALT Class: A Narrative Inquiry. English Language Education Study Program, Faculty of Teacher Training and Education, Widya Mandala Surabaya Catholic University.

Nowadays, technology has become our part of life. It gives us benefits in life, especially in educational fields. Moreover, with the current situation of COVID-19, the learning activities are conducted online. Since the use of technology in educational fields is considered new, it is quite hard for a teacher-to be to make online learning materials. Thankfully, with the existence of CALTclass, which is one of the compulsory courses in Widya Mandala Catholic University, we can learn how to use technology to conduct learning activities. in CALT class, the students learn about online tools to conduct online learning materials. In this research, using the Narrative Inquiry, I share my experience in attending the CALT class. This research focus on what I have learnt in CALT class and also my improvement on developing online learning materials.

*Keywords: CALT class, Narrative Inquiry, online learning materials, materials development*
