

CHAPTER V

CONCLUSION AND SUGGESTIONS

This chapter will provide conclusions and suggestions based on the research findings and discussion in the previous chapter.

5.1 Conclusion

In line with the aim of this study, the researcher employed an instrument developed especially based on Eyre's kinds of moral values to answer the research question which is formulated as "what moral values can be found in the *High School Musical 3* movie?". In order to do so, the researcher watched and analyzed the movie and transcript and then categorized it into moral values related. The subject of this research is *High School Musical 3* movie.

After analyzing the moral values in *High School Musical 3* movie, this study concludes that every person has characteristics with bad and good attitudes. Eyre argues that there are 16 moral values universally, but the study found 10 significant values found in the movie. The researcher found 23 events values in *High School Musical 3* movie which match with Eyre's. The values are Honesty (2), Courage (5), Self-reliance and Potential (2), Self-discipline and Moderation (2), Loyalty and Dependability (1), Respect (3), Love (2), Kindness and Friendliness (4), Resilience (1), Humility (1). Although not all 16 values were found in the movie, this study has explored the richness on them. The analysis has shown how spectators of the movie could learn moral values, which are beneficial for them.

5. 2 Suggestions

After concluding the study results, the researcher would like to give suggestions to students interested in writing moral values analysis and future researchers.

5.2.1 Suggestions for Students Who are Interested in Analyzing Moral Values

According to the study, the researcher would like to suggest that students who are interested in writing an analysis of moral values read more journal articles related to the topic. In writing moral values analysis, students must enrich their knowledge by reading more journals from previous research and related journals. That step is essential with the aim of facilitating the running of the thesis.

5.2.2 Suggestions for Future Researchers

Based on the study result, the researcher suggests that future researchers explore more moral education in child-friendly movies. Future researchers may use another movie with different genres, different theoretical backgrounds, and more profound research questions. This topic might help parents and teachers give their children content to watch.
