APPROVAL SHEET

(1)

This thesis entitled **THE CORRELATION BETWEEN LISTENING SKILL AND SPEAKING SKILL OF THE ENGLISH DEPARTMENT STUDENTS OF WIDYA MANDALA CATHOLIC UNIVERSITY IN THE ACADEMIC YEAR OF 1994-1995,** _____

_____ prepared and submitted by Anita has been approved and accepted as a partial fulfillment of the requirements for the Sarjana Pendidikan degree in English Language Teaching by the following advisor:

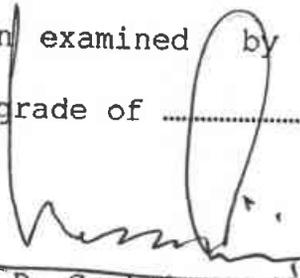

Dra. Magdalena I. Kartio, M.A.

Advisor

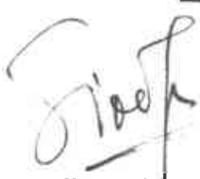

APPROVAL SHEET

(2)

This thesis has been examined by the committee on Oral Examination with a grade of

Drs. M.P. Soetrisno, M.A.
Chairman

Dra. Susana Teopilus, M.Pd
Member

Drs. V. Luluk Prijambodo
Member

Dra. Magdalena I. Kartio, M.A.
Member

DR. Veronica L. Diptoadi, M.Sc.
Dean of the Teacher Training
Faculty

Approved by

Dra. Agnes Santi., M.Pd.
Head of the English
Department

ACKNOWLEDGEMENT

Having completed this thesis, I would like to express my gratitude to:

1. Lord Jesus for His so much love that has enabled enable me to finish my study on time.
2. Dra. Magdalena I. Kartio, MA., my thesis advisor, for her input and guidance.
3. Drs. I. Nyoman Arcana for his valuable help in finishing the statistical computat-ion for this thesis.
4. Dra. Agnes Santi W., MPd. And Dra. Siti Mina Tamah as the Head and the Secretary of the English Department of Widya Mandala Catholic University, for their permission and help in this thesis data collection.
5. My mother, my brother, and my sister for their love and understanding. Their support and understanding do help me in finishing this thesis.
6. Any other people whom I can not mention one by one here for their contribution toward this thesis writing.

Anita

Appendices

LIST OF APPENDICES

1. Appendix 1

Calculation of Correlation and Regression between
Listening I and Speaking I.

2. Appendix 2

Calculation of Correlation and Regression between
Listening II and Speaking II.

3. Appendix 3

Calculation of Correlation and Regression between
Listening III and Speaking III.

ABSTRACT

Anita, *The Correlation Between Listening Skill And Speaking Skill of the English Department Students of Widya Mandala Catholic University In The Academic Year of 1994-1995*, S-1 Thesis, The English Department of Widya Mandala Catholic University Surabaya, 1998.

In proving the correlation of two skills, she chooses the achievement in listening skill and speaking skill of the English department students of Widya Mandala Catholic University in the academic year of 1994-1995. She would like to prove whether the students who get high scores in speaking test will get high scores as well in the listening test.

The objective of the study is to find out whether there is a significant correlation between listening skill and speaking skill of the English Department students of Widya Mandala Catholic University in the academic year of 1994-1995.

This study is a descriptive study that concerns with the relationship that exists. The sub-category of this descriptive study is a correlation study. The subjects of this study are 101 students from the academic year of 1994-1995.

In analyzing the data, the writer calculates the correlation using the Pearson Product-Moment correlation. To know whether the hypothesis is accepted or not, the criteria given by Arcana (1996:57) are used. Then to know which hypothesis (H_0 or H_a) is accepted, the critical value of r Product-Moment with significant level of 5% is applied. To know whether the correlation is significant or not, the writer also considers the value of correlation coefficient compared to the critical value of r Product-Moment. To interpret the coefficient formula, the criteria given by Herzberg (1983:171) is used. To know whether the relationships are linear or not the equation formula of the prediction line given by Arcana (1996:52) is applied. Then, the writer makes the scatter diagrams. To know whether the correlation is positive or negative, the criteria given by Herzberg (1983:171) is used. Finally, the writer draws the conclusion.

The result of the coefficient correlation computation between listening skill and speaking skill has range from 0.4 to 0.5 and the linear regression is inclining, so we can say that listening skill and speaking skill of the English Department students of Widya Mandala Catholic University in the Academic Year of 1994-1995 are moderately significant and positively correlated.
