

BAB VII

SIMPULAN DAN SARAN

7.2 Simpulan

Berdasarkan hasil penelitian yang telah dilakukan ditemukan bahwa, rata-rata ibu yang berada di wilayah kerja Puskesmas Kalibaru Kulon memiliki pengetahuan tentang gizi dengan kategori baik. Berdasarkan hasil data penelitian dan uji statistik yang telah dilakukan, dapat disimpulkan bahwa terdapat hubungan yang signifikan antara pengetahuan ibu tentang gizi dengan status gizi balita 24-59 bulan di wilayah kerja Puskesmas Kalibaru Kulon di Kabupaten Banyuwangi.

7.3 Saran

Saran yang dapat diberikan untuk penelitian serupa selanjutnya antara lain:

7.3.1 Untuk Mahasiswa

Dapat digunakan sebagai referensi untuk penelitian lanjutan mengenai hubungan tingkat pengetahuan ibu

dengan status gizi balita, serta dapat menjadi perbendaharaan kepustakaan.

7.3.2 Untuk Masyarakat

Menjadi sumber informasi praktis bagi masyarakat mengenai pentingnya pemberian gizi seimbang terhadap status gizi balita.

7.3.3 Untuk petugas Kesehatan

Diperlukan intervensi oleh tenaga kesehatan serta bekerjasama dengan kader posyandu untuk terus rutin memberikan penyuluhan tentang gizi seimbang untuk anak kepada ibu - ibu di wilayah kerja Puskesmas Kalibaru Kulon.

7.3.4 Untuk Penelitian Selanjutnya

Untuk penelitian selanjutnya, diharapkan agar peneliti dapat mengembangkan penelitian ini pada beberapa faktor yang dapat mempengaruhi status gizi pada balita.

Dengan tujuan supaya para orang tua khususnya ibu memiliki pemahaman yang lebih mendalam tentang

pemberian gizi seimbang kepada balita, serta orang tua juga memiliki pemahaman tentang pentingnya pemenuhan gizi seimbang terhadap status gizi balita.
