Appendix III - Data of teachers' implementation of teaching and learning activities integrated with "When English Rings the Bell" to indicate the character education of religious values

In Catholic Junior High School of Santa Clara

The teacher preferred to several teaching strategies to develop the students' religious competence and four English skills, say, problem-based learning, cooperative-learning strategy, project-based learning, and task-based learning.

With problem-based learning to teach reading and speaking, the teacher introduced a topic of six religious public places in Indonesia and made several students' small groups. The teacher distributed some pictures of six religious buildings, asked them to complete several lost information of the pictures from the given answers in the bracket, and required them to match a series of possible religious activities or habits and clothes in the brackets with the six religious building pictures, and asked every member of the groups to communicate their work in the class.

With cooperative-based learning, the teacher formed the students into small group, distributed listening worksheet related to English cartoon movies about Christmas, played the movies, and asked each member of the groups to answer the questions of the worksheet and to rewrite the general information of the movies. The teacher targeted this to teach listening and speaking.

The teacher also assigned the students to compose their Christmas celebration plan and devoted to direct project-based learning to teach writing. Besides, the teacher organized task-based learning by asking the students to pray in English when they had English subject and aimed this learning strategy to teach speaking.

In Christian Junior High School of Aletheia

The teacher devoted to several teaching strategies to encourage the students' their religious competence and four English skills, for instances, problem-based learning, cooperative-learning strategy, project-based learning, and task-based learning.

With problem-based learning, the teacher shortly made introduction of a topic of six religious public places in Indonesia and split several students into small groups. The teacher provided some

pictures of six religious buildings and directed them to complete several lost information of the pictures from the given answers in the bracket. The teacher also invited them to match a series of possible religious activities or habits and clothes in the brackets with the six religious building pictures and instructed every member of the groups to present their work in front of the class. The teacher outlined the problem-based learning to teach reading and speaking.

The teacher grouped the students into several small divisions, shared listening worksheet related to English cartoon movies about Christmas, played the movies, and assigned each member of the group to answer the questions of the worksheet and to rewrite the general information of the movies. The teacher applied cooperative-based learning to teach listening and speaking.

With project-based learning, the teacher assigned the students to make composition about their Christmas activity schedule and aimed this to teach writing. Furthermore, the teacher carried out task-based learning by asking the students to pray in English when they had English subject and addressed this learning strategy to teach speaking.

In Islamic Junior High School of Raden Paku

The teacher adhered to several teaching strategies to enhance the students' their religious competence and four English skills, for instances, problem-based learning, cooperative-learning strategy, project-based learning, and task-based learning.

With problem-based learning, the teacher gave a short topical highlight of six religious public places in Indonesia and divided several students into small groups. The teacher equipped them with some pictures of six religious buildings and directed them to complete several lost information of the pictures from the given answers in the bracket. The teacher also asked them to find out a series of proper matches of several religious activities or habits and clothes in the brackets with the six religious building pictures. The teacher, then, instructed every member of the groups to present their work in front of the class and organized the problem-based learning to teach reading and speaking.

The teacher also grouped the students into small classes, shared listening worksheet related to English cartoon movies about Eidul Fitri, played the movies, and instructed each member of the

group to answer the questions of the worksheet and to rewrite the general information of the movies. The teacher aimed cooperative-based learning to teach listening and speaking.

With project-based learning, the teacher got the students to make composition about their own religious celebration, and planned this to teach writing. Besides, the teacher followed task-based learning by asking the students to pray in English when they had English subject and addressed this learning strategy to teach speaking.

In State Junior High School of 49

The teacher followed several teaching strategies to enable the students to augment their religious competence and four English skills, namely, problem-based learning, cooperative-learning strategy, project-based learning, and task-based learning.

With problem-based learning, the teacher presented shortly a topic of six religious public places in Indonesia and categorized several students into small groups. The teacher provided some pictures of six religious buildings and assigned them to complete several lost information of the pictures from the given answers in the bracket. Next, the teacher invited them to look for a series of possible religious activities or habits and clothes in the brackets to be congruent with the six religious building pictures and instructed every member of the groups to present their work in front of the class. The teacher administered the problem-based learning to teach reading and speaking.

The teacher made the students into small groups, distributed listening worksheet related to short recorders about six religious buildings in Indonesia, played the recorders, and asked the members of the group to find out the correct answers of the questions of the worksheet and to present their own work. The teacher intended cooperative-based learning to teach listening and speaking.

The teacher also instructed the students to make composition about their own religious celebration plan, and meant project-based learning to teach writing. The teacher also introduced task-based learning by asking the students to pray in English when they had English subject, and encouraged this learning strategy to teach speaking.

Appendix IV - Data of teachers' implementation of teaching and learning activities integrated with "When English Rings the Bell" to signify the character education of multi-cultural values

In Catholic Junior High School of Santa Clara

The teacher outlined teaching strategies to develop the students' multi-cultural competence and four English skills, say, problem-based, project-based and service learning.

With problem-based learning, the teacher provided a general introduction of a topic related to several public places of multi-culture in Indonesia and made several students' small groups. The teacher distributed some pictures of the places and asked them to select several lost information of the pictures from the given answers in the bracket. The teacher also required them to match a series of possible multi-cultural activities or habits, accessories, food, cultural bounded people name, local heroes/heroines, architectural buildings, and clothes in the brackets with the outlined pictures of the multi-cultural public places, and invited every member of the groups to communicate their work in front of the class. The teacher managed the problem-based learning to teach reading and speaking.

The teacher also assigned the students to browse some information of several pictures of certain multi-cultural public places from the internet and to make their own composition, and prescribed project-based learning to teach writing.

Furthermore, the teacher organized service learning by asking the students to participate in English contests with Indonesian multi-cultural dressing code to teach speaking. Sometimes, the teacher also set out dictation model by telling several descriptions of multi-cultural public places, asked the students to decide the right pictures based on the dictated scripts and managed this strategy to teach listening.

In Christian Junior High School of Aletheia

The teacher administered teaching strategies to build the students' multi-cultural competence and four English skills, e.g. problem-based, project-based, and service learning.

With problem-based learning, the teacher provided a general introduction of a topic related to several public places of multi-culture in Indonesia and divided several small groups of students. The

teacher distributed some pictures of the places and asked them to select several lost information of the pictures from the given answers in the bracket. The teacher also instructed them to match a series of possible multi-cultural activities or habits, accessories, food, cultural bounded people name, local heroes/heroines, architectural buildings, and clothes in the brackets with the outlined pictures of the multi-cultural public places, and invited every member of the groups to communicate their work in front of the class. The teacher managed the problem-based learning to teach reading and speaking.

The teacher also assigned the students to browse some information of several pictures of certain multi-cultural public places in Indonesia from the internet and instructed them to make their own composition. The teacher prescribed project-based learning to teach writing.

The teacher used service learning by asking the students to join English contests with Indonesian multi-cultural dressing code to teach speaking. Sometimes, the teacher also prepared dictation model by telling several descriptions of multi-cultural public places, asked the students to determine the right pictures according to the dictated scripts and designed this strategy to teach listening.

In Islamic Junior High School of Raden Paku

The teacher pursued teaching strategies to encourage the students' multi-cultural competence and four English skills, say, problem-based, project-based and service learning.

With problem-based learning, the teacher provided a general introduction of a topic of several public places of multi-culture in Indonesia and grouped several students into small classes. The teacher distributed some pictures of the places and asked them to select several lost information of the pictures from the given answers in the bracket. The teacher also instructed them to match a series of possible multi-cultural activities or habits, accessories, food, cultural bounded people name, local heroes/heroines, architectural buildings, and clothes in the brackets with the outlined pictures of the multi-cultural public places, and invited every member of the groups to present their work in front of the class. The teacher focused on the problem-based learning to teach reading and speaking.

Besides, the teacher assigned the students to browse some information of several pictures of certain multi-cultural public places from the internet and instructed them to make their own composition. The teacher concentrated on project-based learning to teach writing.

The teacher used service learning by asking the students to join English contests with Indonesian multi-cultural dressing code to teach speaking. Sometimes, the teacher also prepared dictation model by telling several descriptions of multi-cultural public places, asked the students to determine the right pictures according to the dictated scripts and designed this strategy to teach listening.

In State Junior High School of 49

The teacher proposed teaching strategies to enable the students to foster their multi-cultural competence and four English skills e.g. problem-based, project-based and service learning.

With problem-based learning, the teacher gave a general introduction of a topic of several public places of multi-culture in Indonesia and split several students into small groups. The teacher distributed some pictures of the places and asked them to select several lost information of the pictures from the given answers in the bracket. The teacher also instructed them to match a series of possible multi-cultural activities or habits, accessories, food, cultural bounded people name, local heroes/heroines, architectural buildings, and clothes in the brackets with the outlined pictures of the multi-cultural public places, and invited every member of the groups to present their work in front of the class. The teacher focused on the problem-based learning to teach reading and speaking.

Besides, the teacher assigned the students to browse some information of several pictures of certain multi-cultural public places from the internet and instructed them to make their own composition. The teacher concentrated on project-based learning to teach writing.

To teach speaking, the teacher sometimes pursued service learning by sending the students to join English contests with Indonesian multi-cultural dressing code. To teach listening, the teacher sometimes prepared dictation model by telling several descriptions of multi-cultural public places and asked the students to determine the right pictures according to the dictated scripts.

Appendix V

Interview materials for the teachers' implementation of teaching-learning tasks elaborated with "When English Rings the Bell" to sound religious information to communicate religious values in the character education

Teacher's name :	Religious faith : ...
Institution : ...	

In the teaching and learning process in the classroom of the 2013 curriculum, there are teachers' five learning strategies that can be undertaken to develop the students' religious behavior as manifestation of religious competence to mark the character education.

1. What learning strategy do you undertake to connect religious information of the students' textbook with the development of particular English skill of the students?
2. How often do you integrate each learning strategy with religious information of the textbook to develop particular English skill of the students?
3. How do you implement each learning strategy with religious information of the textbook to develop particular English skills of the students?

No	Teachers' implementation choice of learning strategy (1=never, 2=sometimes, 3=often, 4=very often)	Real implementation of classroom learning activity in the various textbook material category of religious information (religious discourse) for the students' particular English skill development

Appendix VI

Interview materials for the teachers' implementation of teaching-learning tasks elaborated with "When English Rings the Bell" to sound multi-cultural information to communicate multi-cultural values in the character education

Teacher's name :	Ethnic group : ...
Institution : ...	

In the teaching and learning process in the classroom of the 2013 curriculum, there are teachers' five learning strategies that can be undertaken to develop the students' social (multi-cultural) behavior as manifestation of social competence to sound the character education.

1. What learning strategy do you undertake to connect multi-cultural information of the students' textbook with the development of particular English skill of the students?
2. How often do you integrate each learning strategy with multi-cultural information of the textbook to develop particular English skill of the students?
3. How do you implement each learning strategy with multi-cultural information of the textbook to develop particular English skills of the students?

No	Teachers' implementation choice of learning strategy (1=never, 2=sometimes, 3=often, 4=very often)	Real implementation of classroom learning activity in the diverse textbook material category of socially multi-cultural information (multi-cultural discourse) for the students' particular English skill development				
		Speaking	Reading	Writing	Listening	
1	problem-based learning	1				
		2				
		3				
		4

		4				
5	task-based learning	1				
		2				
		3				
		4				

Appendix VII

Interview guidance for the teachers' implementation of teaching-learning tasks elaborated with "When English Rings the Bell" to sound religious and multi-cultural information to communicate religious and multi-cultural values in the character education

Teacher's strategy	Implementation
problem-based learning	<ul style="list-style-type: none"> • It is a student-centered pedagogy in which students learn about a subject through the experience of problem solving. • Students learn both thinking strategies and domain knowledge. • Working in groups, students identify what they already know, what they need to know, and how and where to access new information that may lead to resolution of the problem. • The role of the instructor is to facilitate; learning by supporting, guiding, and monitoring the learning process. • Tutor must build students' confidence to take on the problem, and encourage the students, while also stretching their understanding
cooperative learning	<ul style="list-style-type: none"> • It is an approach aiming to organize classroom activities into academic and social learning experiences as structuring positive interdependence. Every student must fully participate and put forth effort within their group to be responsible for their learning group. • Students must work in groups to complete tasks collectively toward academic goals. Students can capitalize on one another's resources and skills (asking for one another for information, evaluating one another's ideas, monitoring one another's work etc.) • Teacher role is facilitating students' learning. • The success of this approach is due to intellectually demanding, creative, open-ended, and involve higher order thinking tasks.
project-based learning	<ul style="list-style-type: none"> • It is real-world problems capture students' interest and provoke serious thinking as the students acquire and apply new knowledge in a problem-solving context. • The teacher plays role of facilitator, working with students to frame worthwhile questions, structuring meaningful tasks, coaching both knowledge development and social skills, carefully assessing what students have learned from the experience. • typical project present as problem to solve or a social phenomenon to investigate
service learning	<ul style="list-style-type: none"> • It is teaching method combining classroom instruction with meaningful community service • It emphasizes critical thinking and personal reflection while encouraging a heightened sense of community, civic engagement, and personal responsibility. • It is approach that balances formal instruction and direction with the opportunity to serve in the community in order to provide pragmatic, progressive learning experience. • It must properly connect the traditional series of experience with the real life lessons that come through service. • It will provide a series of exercises to allow students to reflect on their service experiences in order to grow in character, in problem-solving skills, and in understanding of civic responsibility.
task-based learning	<ul style="list-style-type: none"> • It focuses on the use of authentic language and on asking students to do meaningful tasks using the target language. Such tasks can include visiting a doctor, conducting an interview, or calling service for help. • Assessment is based on task outcome (the appropriate completion of real world tasks) rather than on accuracy of prescribed language forms • This approach is popular for developing target language fluency and students' confidence • The components of a task are: goals and objective, input, activities, teacher roles, learner role and settings.

Appendix VIII - Comparison interpretation of analytic units of religious information

The qualitative data content analysis of religious information

Based on table 4.1.1.1 (p.108), 4.1.2.1 (p.115) and 4.2.1.1 (p.119), the researcher showed the comparison of overall interpretation of religiousness done by the researcher and the three counterparts after considering the semantic and symbolic image representational meanings of the discourse analysis units of the data (of English and Indonesian vocabulary and images),

Comparative interpretation of analysis units of English and Indonesian vocabulary and images as manifestation of reflexive context to represent religiousness						
Location of the data in chapter and page			Interpretation of the data done by researcher, member checker 1, 2 and 3

Appendix IX - Comparison interpretation of analytic units of multi-cultural information

The qualitative data content analysis of multi-cultural information

According to table 4.4.1.1 (p.130), 4.4.2.1.1 (p.134) and 4.5.1.1 (p.140), the researcher displayed the comparison of overall interpretation of multi-culture done by the researcher and the three counterparts after notifying the semantic and symbolic image representational meanings of the discourse analysis units of the data (of English and Indonesian vocabulary and images),

Comparative interpretation of analysis units of English and Indonesian vocabulary and images as manifestation of reflexive context to represent multi-culture

Appendix X - The possibility of religious values to carry out character education

Religious values		Units of data from chapter and page for the depiction of the possible religious values
Religiousness	wearing particular religious clothes	I – 4a, I – 4b, I – 4c, I – 4d, I – 4e, I – 5, I – 8, I – 16, I – 17a, I – 17b, I – 19, II – 32, II – 33, II – 36a, II – 36b, II – 38a, II – 39a, III – 52 a, III – 53a, III – 57a, III – 57c, III – 58, III – 62, III – 64, III – 67, III – 70, III – 71, III – 73, IV – 83, IV – 90a, IV – 91a, IV – 91b, IV – 93a, IV – 93b, V – 104, V – 108, V – 111, V – 114, V – 120, V – 122, VI – 128, VI – 130, VI – 137, VI – 138a, VI – 138b, VII – 152, VII – 154, VIII – 176a, VIII – 176b, VIII – 176c, VIII – 178, VIII – 181
	performing liturgical sermons in specific building	III-52a, III-53b, III-57a, III-57b
	carrying out religious habitual activities	II – 39a, IV – 90a
	displaying religious particular photo	IV-83

Appendix XI - The possibility of multi-cultural values to carry out character education

Multi-cultural values		Units of data from chapter and page for the representation of the possible religious values
Communication and friendliness	communication and friendliness of performing common acceptable addressing system towards other's possible diverse multi-cultural devotion	I-4a, I-4b, I-4c, I-4d, I-4e, I-5, I-8, I-17a, I-17b, I-19, III-58, III-62
Tolerance	tolerance of showing respectful behaviors towards other's differently possible multi-cultural symbolic representation	I-10, III-56, III-57a, III-57b, III-57c, III-57d, V-109, V-123
Democracy	democracy of welcoming to other's possible different ideas	III-52a, III-52b, III-53a, III-53b, V-110a, V-110b, V-110c, V-110d
Nationalism	nationalism of defending own country in battle field	II-46a, II-47a, II-47b, III-54, VII-161a, VII-161b, VII-161c,
Obedience	obedience of perceptibly doing daily routines in good ways, appropriate time and place	II-38a, III-70, IV-91a, IV-91b, IV-93a, IV-93b, V-120
Hard work	hard work together in positive goals in everyday practices	I-16, II-32, II-33, II-36a, V-104, V-111, VI-138b
Creativity	creativity in designing and producing cultural products	VII-154a, VII-154b, VII-154c, VII-154d
Social care	social care of helping neighbors in need	VI-130, VI-137, VII-152
Responsibility	responsibility of doing own tasks	II-36b, VI-138a, VIII-176c
Environmental care	environmental care of surrounding nature	V-108, VI-128

Autobiography

The detail information of the author of this thesis is presented as follow,

Name : Efendi, S.S.
Place/Date of birth : Pasuruan, 2 June 1981
Degree :

- Bachelor of English Letters, Surakarta University, 2008, Solo
- Teaching Certificate, Muhammadiyah University, 2010, Surabaya

Organization Experiences :

- English Instructor in PT. Primagama Tbk, Surabaya Area 2008 – now
- English Instructor in Alfa Gamma, Surabaya and Sidoarjo Areas 2013 – now

Non- and Academic Experiences:

- Intensive Course for UNAS, Primagama and SMP N 45 Surabaya 2009 – 10
- Intensive Course for UNAS, Primagama and SMA Hang Tuah 1 Surabaya 2012 – 13
- Intensive Course for UNAS, Primagama and SMP N 1 Waru Sidoarjo 2012 – 13
- Intensive Course for UNAS, Primagama and SMA N 10 Surabaya 2012 – 13
- Intensive Course for UNAS SMA N, Primagama and DIKNAS Surabaya 2012 – 13
- Intensive Course for UNAS SMP N, Primagama and DIKNAS Surabaya 2012 – 13
- Intensive Course for UNAS, Primagama and SMP N 8 Surabaya 2012 – 13
- Intensive Course for UNAS, Primagama and SMP N 27 Surabaya 2011 – 12
- Intensive Course for UNAS, Primagama and SMP N 30 Surabaya 2011 – 12
- Intensive Course for UNAS, Primagama and SMP UNESA 1 Surabaya 2011 – 13
- Intensive Course for UNAS, Primagama and SMP PGRI 6 Surabaya 2011 – 13
- Intensive Course for UNAS, Primagama and SMK Sejahtera Surabaya 2011 – 12
- Intensive Course for UNAS, Primagama and SMA N 14 Surabaya 2011 – 13
- Intensive Course for UNAS, Primagama and SMA N 20 Surabaya 2011 – 13
- Intensive Course for UNAS, Primagama and SMA Giki 3 Surabaya 2011 – 13
- Intensive Course for UNAS, Primagama and SMP N 12 Surabaya 2011 – 13
- Intensive Course for UNAS, Primagama and SMP N 30 Surabaya 2011 – 13
- Intensive Course for UNAS, Primagama and SMP Kartika Surabaya 2011 – 13
- Intensive Course for UNAS, Primagama and MA N 1 Surabaya 2012 – 15
- Intensive Course for UNAS, Primagama and SMP Dr. Soetomo Surabaya 2011 – 14
- Intensive Course for UNAS, Primagama and SMP Untag Surabaya 2011 – 14
- Intensive Course for UNAS, Primagama and SMP GIKI 3 Surabaya 2011 – 14
- Intensive Course for UNAS, Primagama and SMP N 25 Surabaya 2013 – 14
- Intensive Course for UNAS, Alfa Gamma and SMP N 49 Surabaya 2013 – 14
- Intensive Course for UNAS, Alfa Gamma and SMP 39 Surabaya 2014 – 15
